

Third Basic B.Sc. Nursing Examination, Summer 2013  
CHILD HEALTH NURSING

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION - B & SECTION - C

Instructions: 1) All questions are compulsory.

2) The number to the right indicates full marks.

3) Draw diagrams wherever necessary.

4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

(5×3=15)

2. Answer the following (any 5 out of 6) :

- ✓ a) List the causes of Iron deficiency anaemia (3)
- ✓ b) Advantages of Breast feeding (2)
- ✓ c) Principles need to be kept in mind while selecting toys for small children (3)
- d) Sickle cell crisis (3)
- ✓ e) Juvenile delinquency (6)
- ✓ f) Reaction of toddlers to hospitalization (6)

(3×5=15)

3. Answer the following (any three out of four) :

- ✓ a) Resuscitation of newborn (3)
- ✓ b) Nursing care of child with status epilepticus (5)
- ✓ c) Rickets and its prevention (3)
- ✓ d) Prevention of accidents in children (2)

62702

SECTION C

✓ Write long answers (any two out of three) :

(2x15=

- ✓ a) i) Define growth and development. (2)
- ii) Factors influencing growth and development.
- iii) Explain the various developmental task of Toddler.
- ✓ b) i) Define Nephrotic syndrome. (5)
- ii) Describe how to diagnose nephrotic syndrome.
- iii) Describe the pathophysiology of nephrotic syndrome.
- iv) Discuss the nursing problem insolation to priority and nursing intervention
- c) Master Sunil 1½ years old child admitted in paediatric ward with the complaints of gradual increase in head circumference, fever irritability and occasional vomiting with the diagnosis of hydrocephalus.
- ✓ i) Define Hydrocephalus (5)
- ii) List down the various types of shunt procedure and the problems associated with it.
- iii) Enlist the preoperative and post operative problems of the child and develop a post operative nursing care plan for the child.

Third Basic B.Sc. Nursing, Examination, Winter 2013  
CHILD HEALTH NURSING

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

**Instructions :** 1) All questions are compulsory.

2) The number to the **right** indicates full marks.

3) Draw diagrams wherever necessary.

4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Answer the following (any five out of six) :

(5×3=15)

- a) Discuss different types of shunts used in hydrocephalus. (3)
- b) Discuss febrile convulsion. (3)
- c) Explain Jones criteria of rheumatic fever. (3) Major criteria  
Minor criteria
- d) Diagnosis of meningitis. (3)
- e) List down the causes of intestinal obstruction in children. (3)
- f) Discuss the principles to be kept in mind while selecting toys. (2)

3. Answer the following (any three out of four) :

(3×5=15)

- a) Explain Wilms tumour. (5)
- b) Explain Enuresis. (5)
- c) Discuss the common behavioural problems seen in toddlers. (6)
- d) Explain phototherapy. (5)

4. Answer the following (any two out of three) :

- a) i) Define Congenital Anomalies ? (5)
    - ii) Discuss the importance of genetic counselling.
    - iii) Discuss different Congenital Anomalies as per system.
  - b) i) What is Nephrotic syndrome ? (5)
    - ii) Explain signs and symptoms and diagnosis of nephrotic syndrome.
    - iii) Explain the management of child who is admitted with relapse of nephrotic syndrome.
  - c) Pari got admitted with complaints of breathlessness.
    - i) Enlist causes of pneumonia in children. (5)
    - ii) Discuss oxygen therapy in children.
    - iii) Write Nursing Management of Pari.
-

Third Basic B.Sc. Nursing Examination, Summer 2014  
CHILD HEALTH NURSING

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION - B & SECTION - C

- Instructions :
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates full marks.
  - 5) Draw diagrams **wherever necessary**.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for all Sections.

SECTION - B

(30 Marks)

2. Answer the following (any five out of six) :

(5×3=15)

- a) Care of ventriculo peritoneal shunt (3) Hydrocephalus
- b) Complications of acute glomerulonephritis (2)
- c) List the causes of iron deficiency anaemia (3)
- d) Thermoregulation in a newborn (2) radiant warmer
- e) Meningocele (3) Spina bifida
- f) Principles to be kept in mind while selecting toys for children. (2)

3. Answer the following (any three out of four) :

(3×5=15)

- a) Enuresis (3)
- b) Oral rehydration therapy - ORS (3)
- c) Hypospadias (3)
- d) Nutritional assessment in children. (3)

P.T.C.

62702

SECTION - C

4. Answer the following (any two out of three) :

a) Master Ajay 11/2 year old child is admitted to paediatric surgery with diagnosis of hydrocephalus

(i) Define hydrocephalus. (5)

(ii) List down the various types of shunts, procedure and the problems associated with it.

(iii) Enlist the pre-operative & post-operative problems of the child and develop post operative nursing care plan for the child.

b) Baby of Mrs Rekha, 1 month old is admitted to the paediatric ward for management of Hirschsprungs disease the infant is posted for colostomy

(i) What is Hirschsprungs disease ? (5)

(ii) Enumerate the clinical features that could be observed in neonates and children with this disease.

(iii) Discuss the nursing care of this infants during the pre and post operative period.

c) Master Mohan a 21/2 year old child weighing 7 kgs is admitted to your paediatric ward, he is diagnosed as a case of kwashiorkor

(i) Define Kwashiorkor. (5)

(ii) State specific observations of Master Mohan.

(iii) Develop short-term nursing care plan for Master Mohan, based on three problems.

Total Duration: Section A+B = 3 Hours

Total Marks - 75

## Section - A &amp; Section - B

## Instructions:

- 1) Use blue/black ball point pen only.
- 2) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for all sections.

**SECTION - A (40 Marks)**

1. Short answer question (**any five out of six**) : (16) [5 × 5 = 25]

- a) Nutritinal needs in PEM.
- b) Discuss the methods of oxygen administration in children.
- c) Under five clinic.
- d) Baby friendly initiative hospital policy.
- e) Advantages of breast feeding.
- f) Principles of Growth and Development.

2. Long answer question (**any one out of two**):

- a)
  - i) Define Thalessemia. [2]
  - ii) Discuss the medical management of Thalessemia. (10) [5]
  - iii) List down nursing diagnosis and write nursing care plan for any two nursing diagnosis. [8]
- b)
  - i) Explain the different types of pneumonia. 223 [4]
  - ii) Explain the therapeutic management of pneumonia. 2 [4]
  - iii) Describe the nursing management based on three prioritized nursing diagnosis. (5) [7]

**SECTION - B (35 Marks)**

[4 × 5 = 20]

3. Short answer question (**any four** out of five):

- a) Behavioral problems in children. 3
- b) Nursing management of measles. 2
- c) Care of child with photo therapy. 3
- d) Foreign body obstruction in children.
- e) Immediate care of newborn. 3

$$\begin{array}{r} 21 \\ 26 \\ \hline 47 \end{array}$$
4. Long answer question (**any one** out of two):

[2]

a) i) Define kangaroo mother care. 2

ii) What are its components and advantages of kangaroo mother care. 3

[5]

iii) Explain procedure of kangaroo mother care. 5

[8]

b) Two days old baby of Geeta brought to pediatric surgical ward with Meningomyelocele.

i) Define Neural tube defects. 2

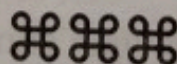

[2]

ii) Write various types of Neural tube defects. 5

[5]

iii) Develop Pre and post operative nursing care plan for baby of Geeta. 8

[8]
